-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-14 are pending and have been examined.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 14 June 2004 was considered by the examiner.

Response to Amendment

2. Applicant's amendment of 14 June 2004 does not comply with 37 C.F.R §1.121. Applicant's amended claim listing failed to begin on a separate sheet of paper as required. In response to this action, Applicant is required to submit a copy of claims in the correct format and as filed as of 14 June 2004. However, the substance of Applicant's amendments and arguments have been addressed below.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 2124

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1, 4, 8-14 rejected under 35 U.S.C. 102(e) as being anticipated by **Bowman-Amuah** (USPN 6,662,357). See previous action for rejection.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over **Bowman-Amuah** (USPN 6,662,357). See previous action for rejection.
7. Claim 3 and 5-7 is rejected under 35 U.S.C. 103(a) as being unpatentable over **Bowman-Amuah** (USPN 6,662,357) in view of **Gandel et al.** (USPN 6,167,568). See previous action for rejection.

Response to Arguments

8. Applicant's arguments filed 14 June 2004 have been fully considered but they are not persuasive. Applicant argued **Bowman-Amuah** does not disclose: ¹⁾ entering a

review request; ²⁾ performing a readiness assessment; ³⁾ providing an overview and process flows identifying control points; ⁴⁾ determining whether said results justify a decision of certification; and ⁵⁾ performing a separation of duties evaluation. These points are not persuasive. Further, as an initial matter, the entire **Bowman-Amuah** document was cited, where particular quotations were provided as exemplary teachings.

First, **Bowman-Amuah** did disclose entering review request (column 20, lines 54-60; creating/entering requests for data element changes during design; thus the process of reviewing/editing/changing/developing software entered into the database). Second, **Bowman-Amuah** clearly demonstrated performing (column 41, lines 35-37 and 51-53; users are involved in reviews or in other words an act of performing in relation to the functional and technical review checklist). Third, **Bowman-Amuah** showed the review overview and process with control points through column 50, lines 10-19 (workflow and control points) and column 41, lines 35-37 and 51-53 (the review process itself and thus an overview). Fourth, **Bowman-Amuah** disclosed determining justification of a decision of certification (column 28, line 64 to column 29, line 10; analysis and authorization/certification; also column 41, lines 35-37 and 51-53; providing a process of review for the purpose of certification). Fifth, **Bowman-Amuah** disclosed separation of duties (column 11, lines 1-32; note each role in team specified in lines 1-4). Therefore, the rejections are maintained at this time.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
